EXPERIENCE

[Acro Nation](#) | **NextJS, Redux, TypeScript, Tailwind CSS, GSAP, React Three Fiber**
Project Lead | October 2024 - Present
Team Leadership & Collaboration

- Led a team of 10 developers in building scalable, high-performance web applications using Next.js, React, and Tailwind CSS.
- Collaborated with cross-functional teams (design, product management, and DevOps) to ensure smooth project execution and meet client requirements
- Mentored junior developers, providing technical guidance on Next.js, React, and TypeScript best practices.

Project Architecture & Development

- Architected and implemented server-side rendering (SSR) and static site generation (SSG) solutions to optimize page load times and SEO for large-scale websites.
- Developed custom API routes and integrated third-party APIs for seamless backend-front-end communication.
- Enforced coding standards and code review practices to maintain high-quality and maintainable code.

Performance Optimization & Deployment

- Optimized application performance using code splitting, caching strategies, and image optimization techniques in Next.js.
- Managed deployments and continuous integration/continuous deployment (CI/CD) pipelines for staging and production environments.
- Resolved complex issues related to server-side rendering, state management, and third-party service integration.
